The extension of the Syria Programme simplifies requirements and adds flexibility.

The National Directorate of Migrations, organism dependent of the Ministry of Interior and Transport, has extended for another year the validity of the "Syria Programme" for the humanitarian visas, by means of the Disposition DNM N° 4499/2015. This special regime, created to facilitate the entry into Argentina of persons of Syrian nationality and their relatives, or of Palestinian nationality provided they are habitual residents or have resided in Syria and received assistance from UNRWA, has been updated with modifications which simplify the procedure. Currently, the existence of a family bond or of affinity between the "caller" and the beneficiaries is not required to submit the application before the National Directorate for Migrations; it is accepted that organizations or institutions interested may endorse as guarantors the commitment of maintenance, accommodation and accompaniment; and the visa can be processed from any Argentine consulate in the world, without restrictions. The procedure is FREE. There is no need for AGENTS or INTERMEDIARIES.
